## Taking it up a large notch

The C931e is a professional-quality device that creative, opportunityseeking Print Production Houses, Design Firms and Specialty Print Shops have been looking for: it's fast, affordable and easy to use—with a media flexibility unmatched by ordinary color printers.

## **HD Color Printing technology**

OKI high-definition color is the standard for the C931e. HD Color renders deeper, more saturated colors, finer detail and more precise toner placement than ordinary color printers:

• Multilevel LED printheads control the amount of toner applied to each 1200-dpi dot, preserving fine image detail and maximizing color fidelity

- **Microfine toner** engineered for sharpness and crispness, with a high-quality finish
- Single Pass Color<sup>™</sup> technology improves color registration for all paper types and weights
- Printer control system adjusts for sharp, clear images every time

## More benefits for you

The C931e lets you extend your inhouse printing and presentation capabilities from the expected to the extraordinary. This affordable printing device, with its ease of use and low total cost of ownership, enables you to produce stunning documents, offer new services, be competitive, and grow your business.

Print with HD Color on a wide variety of media types and sizes—and get breathtaking results every time!

# You can have it all: professional-quality output, flexibility and ease of use – the perfect device for graphics-oriented applications.

## Built on a true multimedia production platform:

- **Multimedia** The C931e easily handles 360 gsm extra-thick card stock, polyester, magnetic media, transparency films and much more in sizes ranging from 3" x 5" index cards to 13" x 52" banners.
- **Production** The C931e enables users to produce striking comps, one-offs and reprints at up to 50 ppm<sup>1</sup>—with easy-to-change, high-capacity Genuine OKI<sup>®</sup> toner cartridges, rated at a productivity-enhancing 38,000 pages<sup>2</sup>.
- **Platform** The C931e is aligned with the direction of today's print production marketplace: short-run capacities, fast print speed and stunning output—with support for future features and services.

## Optional RIP ensures color accuracy and streamlines color management

Equipped with an optional external RIP, the C931e expedites and streamlines job processing while maintaining industry-standard color management for consistent, predictable results.

- The optional Fiery<sup>®</sup> C9 Server from EFI<sup>®</sup> offers fast, precise color reproduction and flexible job management. It uses the most popular Fiery features—including Command WorkStation<sup>®</sup>, Spot-On<sup>™</sup> and Adobe<sup>®</sup> PDF Print Engine 3.0—to expand the production capabilities and improve the operational efficiencies of print shops and in-house printing services.
- **The optional Harlequin**<sup>®</sup> **DirectPrint RIP** is a cost-effective way to take full advantage of the C931e's color-on-color capabilities. It's both fast and easy to use, ensuring beautiful and accurate color every time. The "HDP" uses a PDF workflow, accepting jobs from both Mac<sup>®</sup> and PC. Built-in Harlequin Dispersed Screening (HDS) and Hybrid Screening (HXM) produce sharp details and high-fidelity color transitions.

PANTONE<sup>®</sup> libraries are included in both the Fiery C9 Server and Harlequin DirectPrint RIP, to ensure accurate color matching job to job.

### **Real-time status and easy maintenance**

Users can get an instant read on the C931e's status via the color LCD display, with its easy-to-read messaging and graphics. The alphanumeric keypad makes entering commands a snap. And the front-accessible compartment makes replacing consumables quick and easy: it takes seconds to switch out used toner cartridges or image drums for high-capacity Genuine OKI® replacements.

Color LCD display shows current status of the printer; built-in toner gauge indicates the remaining life of each toner cartridge.

Front-accessible consumables make changing or replacing toner cartridges and image drums easy and quick.

Optional 2nd tray and high-capacity feeder (with casters) increase paper capacity to 2,950 sheets max.
